COMPANY NEWS

40% Discount on Pictograph Animals

In the last newsletter, we talked about our Pictograph Animals and how they are unique to Nomadics. They are like our signature: If you see them, you know that you are looking at a Nomadics tipi, even from afar. It is a very specific painting style and while we have noticed that our inventions and ideas are being copied by other tipi companies, so far no one has copied our Pictograph Animals (and we hope that those companies have enough integrity to not be doing so in the future).

You can fill a whole canvas just with those animals - no top or bottom needed: a buffalo stampede, a herd of wild horses, eagles everywhere or coyotes running around the tipi. Sometimes we also paint the spirits of the animal, which is done just in one color, in a faded gray. Combine them with some shaman figures and you have a cover that invokes a sense of mystique and reverence just by looking at it.

For the month of September 2026, we are offering all 14 standard Pictograph Animals at a 40% discount, which amounts to \$45 each instead of \$75 per animal. Spirit Animals (grey tone only) and 4 Shaman Figures are even less, just \$30 each.

Please mention the **Promo Code: "August Newsletter"** to receive the discount.

ART DEPARTMENT

The Little Critters

When you order a painted tipi cover from us, you have the option to customize it in any way you would like. While our Tipi Builder on our website gives you a lot of options to choose your painting style, your color palette and to mix and match top and bottom designs, you can still add your personal touch.

Would you like to celebrate the hummingbirds and butterflies, honor the tree frogs or be reminded year around of the playfulness of the golden mantled ground squirrels? How about a little mouse, a dragonfly or your favorite bird from your birdfeeder or the pond nearby? Send us a picture or photo and we can easily add a little critter somewhere on your cover.

50% OFF at Adventure Terlingua, TX

Terlingua Basecamp has posted their Summer Special (50% Off until Sept 30th) and their appeal for support (**Promo Code: No Wall**) on their social media platforms, and we are happy to spread the word. They have been great customers over the years and are worried that "contracts worth almost \$2 billion have been awarded to build walls, surveillance roads, Smart Fence, and high-wattage lighting and other "things" throughout the Big Bend Region, which will destroy this beautiful, wild landscape."

Their night sky and stargazing is incredible - we even feature their tipis at night in our Tipi Calendar - December photo (I guess you have to wait until December to see it unless you purchased our tipi calendar for this year).

Find out more about their concerns - while the beauty still lasts...

Tips and Tricks

Tipi Lamp Shades

We thought this was a really cute idea, although unfortunately we cannot show you the finished product yet: A customer asked us to paint a tipi design on a miniature tipi, so he can use it as a lamp shade. Dale did a great job cutting out the tipi, painting it and putting it together with its little lacing pins and sturdy poles. It is a work of love for sure, but if you pay for postage, we are happy to send you some small fabric swatches for free, so you can try yourself. - And maybe you could share a photo of the final product with us?
