FULL- & HALF-DAY CAMPS
For ages 6 & up with a variety of activities.

ARTS & CRAFTS
Creative art camps and programs in various mediums.

OUTDOORS
Exciting adventures centered on nature.

TIPIS FOR PARK & REC

Every summer, Bend's Park & Rec Program is setting up their Nomadics tipis at the local preserve, and they use them for their Outdoors programs. The tipis are set up in Shevlin Park next to Tumalo Creek and constitute a major attraction for the city's extensive summer recreation offerings for kids. Kids can stay overnight during the programs, but the tipis are also accessible for anyone to use when no activity is planned. To minimize wear and tear of the tipis when they are unattended, they are set up without a liner and without a door flap. This open set up also discourages animals or people from 'hiding' in it, and over the years, no vandalism or destructive behaviour has been seen. Thank you, Bend Park & Rec, for providing access to tipis to the public - and for providing education about the indigenous, respectful way of life in harmony with Nature.

ART DEPARTMENT

DESIGN DETAILS

We just received this photo from Patti and Barry of their 20ft 13oz poly/cotton tipi with stained tan background. They write "So amazing! We love love love it!!! Please tell Kris and all the artists they are wonderful and made our dream come true."

When it comes to our craftsmanship and artwork, we always listen to the little details that customers would like, such as painting the inside of the smoke flaps, making the pinning face double colored or adding two additional hand prints on the door shield on Patti's tipi. Those are actually their own handprints, they came to the shop to add them to the door design. We are always happy to accommodate special wishes and it makes the tipi so much more personal for the owner. We even once had a customer requesting to hide a little painted mouse somewhere on the cover and it was a joy for their kids to search around and discover it.

While our TIPI BUILDER design tool is very good at helping you to make the choices of art style and color palette and choosing your tops, bands and bottom designs, you can always add additional instructions in the 'Comments' field. You can also discuss your ideas with Tashina as you finalize your order, we love to make your dreams come true.

Heartline Ranch & Tipi Village

Heartline Ranch: Tipi Village & Fine Arts

Hi! Cowboy Bob & Kori here, to say 'Howdy' and tell a little about us. I have been working with horses for many years, using natural horsemanship methods. We have retired from the horse rides here on the ranch, and are instead concentrating on our Tipi Village of 6 tipis & 6 campsites which we rent out, and also on our own original custom Art Work. We do all our own original artwork on our ranch here. We are down the road from Crater Lake. I am a professional high-end custom furniture artist, and Kori is a potter and painter. We both have showed in national shows and have our work internationally placed. We

HEARTLINE RANCH & TIPI VILLAGE, CHILOQUIN, OR

On my way back from Ashland to Bend, I recently checked in with Kori about their Tipi Village. All 6 tipis are beautifully set up and ready for the travelers on their way to Crater Lake, Oregon's only National Park. Heartline Ranch also offers campsite if you bring your own tent, and art classes. They have retired from offering horse back riding, but you can still help with feeding and caring for the horses.

Kori is an American Indian painter and potter. Kori is Navajo, Cherokee and Mohawk and she offers a unique Western / Native American experience. Please check out their website heartlineranch.com and consider a stay in their tipis on your way to Crater Lake.

WE CARE

Lakota People's
LAW PROJECT

Dear Nicole,

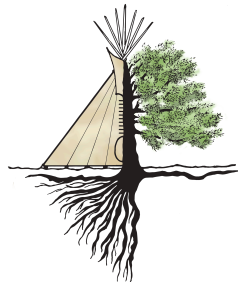

I'm writing to you today with something we honestly don't get to say very often: we won, and we know why. You've probably heard by now that May 8th, Pete Lien & Sons formally withdrew their Plan of Operations for the Rochford Mineral Exploratory Drilling Project at *Pe'Sla*. The drilling is done. The permit is rescinded. The sacred heart of the Black Hills will not be graphite mined, not this time, not by this company, not under this plan.

NO DRILLING IN THE BLACK HILLS

The Lakota People's Law Project / Sacred Defense Fund is partnering with many Native communities to protect sacred lands, and they recently were able to stop a mining company in the hearts of the Black Hills. They were able to protect their most sacred grounds from greed and exploitation - at least for now. When we received the news via their newsletter, we immediately congratulated Chase Iron Eyes and his team and send them a \$1,000 donation as a thank you for their hard work on behalf of all of us love and cherish Mother Nature.

To read about Pe'Sla or other campaigns and to stay informed and engaged, you can sign up to their newsletter here:
